LMLP/2017-18/023

August 18th, 2017

Dear Mothers,

Since children are easy targets and most vulnerable to all types of danger and sexual abuses, they must be taught to be safe without making them scared and therefore, who better than the mother herself, can do this.

But, are all mothers farsighted and intuitive enough to focus on the potent dangers and agents of mishappenings? Most mothers are not aware that their children are susceptible to sexual abuse. Moreover, they do not have proper knowledge of where and how it happens.

With the thought to make our mothers aware about this sensitive issue, LML School proudly offers to conduct a free, first of its kind in Ahmedabad Workshop only for MOTHERS. The topic for the session will be "Girl Child Safety Awareness & Psychological Preparation for Prevention against Sexual Abuse".

Mothers may invite their female friends with them those who are mothers. But no male member, unmarried girl or any child escort is not allowed for the session.

This workshop will be conducted by Ms. Karuna Yadav. She is M.Sc. B.Ed. and also holds MBA degree in Education Administration. She has been a passionate academician since more than 30 years and presently working as a Principal at Kapil Gyanpeeth, Jaipur and is a certified CBSE resource person for conducting Parents workshops all over the country.

If you care for the safety of the child irrespective of the sex (boy/girl) and are genuinely concerned do attend this workshop. The details of the workshop are as follows:

Date: 25th August, 2017 (Friday)

Time: 9:00 a.m. - 11:00 a.m.

Venue: At Kala Kendra, LML School

Regards,

Ranjana Mandan
Principal
